

Hamza Mohd Zubair

Data Scientist & AI Engineer

hamzamohdzubair@gmail.com +91 76009 53379 hzubair.com
in/hamzamohdzubair hamzamohdzubair

Data scientist with **8+ years** of deploying ML in production across **retail**, **BFSI** and **QSR**. Productized supervised learning, reinforcement learning, deep learning, NLP, computer vision, Markov models, time-series forecasting and **LLM** pipelines. Now building independent AI products and speaking on AI.

EXPERIENCE

Data Science & AI Consultant · XCCELER (freelance)

Apr 2025 – Present

- Consults on marketing and CRM data: predictive models and segmentation that find the customers most likely to buy, cutting clients' ad spend through more targeted campaigns.
- Advises multiple clients on using customer analytics to raise the ROI of their marketing campaigns.

Data Scientist · Turing.com

Aug 2024 – Apr 2025

- Part of the team training **Gemini** with supervised fine-tuning (SFT).
- **Complex chart production tool** (sole designer and developer): an LLM pipeline that cut chart generation time by **93%**, from 45 min to 3 min, at about ₹0.4 per chart.

Senior Lead Data Scientist · Cartesian Consulting

Aug 2018 – Aug 2024

- **Campaign prioritizer** (solo): contextual multi-armed bandits with Thompson sampling and UCB, deployed for 2 major clients (pharma retail, brokerage) to send each customer the right campaign, improving click-through rates and revenue.
- **Automated MLOps platform** (team of 2): lets users configure, deploy and maintain XGBoost / LightGBM models with automatic feature engineering, tuning, calibration, retraining, scoring and feature importance. Used by nearly all Solus clients.
- **SMS composer** (solo): generative NLP module and UI that breaks a message down by purpose, tone and personalization fields and writes multiple variants from a prompt.
- **Multi-touch attribution** (solo): adapted Markov-model attribution from digital marketing to CRM and direct marketing.
- **Open rate predictor** (led a team of 3): NLP pipeline that predicts email open rates from subject lines, plus a semantically controlled LSTM that writes subject lines. Deployed for a major Indian bank.
- **Product segmentation** (solo): LDA topic modelling that automated product categorization for targeted marketing.

Founding Employee & AI Lead · Untrodden Labs

Jan 2017 – Aug 2018

- Bootstrapped startup building an Alexa-like desktop robot with voice commands, vision, face tracking and an animated emotive display.
- Led a team of 5 building speech intent classification (SVM, random forests), novelty detection (one-class SVM), information extraction (grammar and dependency parsing, SyntaxNet) and live object detection over 90 classes (YOLO, MobileNet SSD, ResNet v2).

PRODUCTS

Redeo · Android, on Google Play — play.google.com

Spaced-repetition flashcards where you write the answer from memory, an on-device model scores your recall and FSRS schedules the next review. Kotlin, on-device ML, Room.

dontwatch.in · Web app — dontwatch.in

Learn a university lecture series by answering questions linked to the exact minute of each lecture; AI grades answers against what the lecturer said. Cloudflare Workers, LLM grading.

EDUCATION

MS, Computer Science (ML/AI) — 2023 – 2025
Woolf University

Certification, Reinforcement Learning — 2019 – 2020
IISc Bangalore

MSc, Cognitive Science — 2013 – 2015
IIT Gandhinagar

BTech, Bioinformatics — 2009 – 2013
VIT Vellore

SKILLS

Languages	Python, Rust, Kotlin, SQL, R
ML	PyTorch, TensorFlow, Keras, XGBoost, LightGBM, Vowpal Wabbit
Data	NumPy, pandas, SciPy
Areas	LLMs, NLP, bandits & RL, computer vision, forecasting, attribution

RECOGNITION

- Employee of the Quarter, Cartesian (Q1 2020)
- Innovation Award for NLP work, Cartesian (2020)

TALKS

State of AI: Facts vs Hype · MINE — Nov 2025

AI 101 · The Success Institute, Bangalore — Oct 2025

HackerTech · VIT University, Vellore — Dec 2019

AI: Between Myth, Mind and Morality · BIFT, Bangalore — Nov 2025

Sustainable AI · St. Claret College, Bangalore — Oct 2025

AI for Startups · Nexus, US Embassy, New Delhi — Aug 2017
